## Free Online Databases (by Subject)

Internet research may be the more convenient way of finding information for your papers, reports, etc. because of its readiness and availability. A word of caution though— there is a considerable amount of misinformation on the internet. Hence, the credibility and authoritativeness of the sites must be taken into consideration. Here are some websites you can trust:

### Arts and Humanities

#### Literature

Philippine Literature:

## FREE ONLINE DATABASES: AN ANNOTATED GUIDE

### TREASURES OF THE INTERNET

This website provides links to primary databases (i.e., original sources of information, as opposed to archives and directories), photogalleries, as well as stable archives and directories available in the internet. It has search feature and an index for quick access to various databases.

URL: [www.treasuresoftheinternet.org](http://www.treasuresoftheinternet.org)

AIDS

American literature

Bioethics

Cancer

Ecology

English literature

Heart—Diseases

Latin American literature

Medical centers

Nutrition

Science

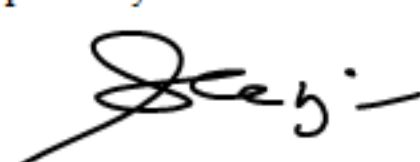

Technology

### FREEFULLTEXT.COM

This website provides direct links to over 7000 scholarly periodicals which allow some or all of their online content to be viewed by ANYONE with Internet access for free (though some may require free registration). The issue(s) which are available for free are indicated for each title on the alphabetical periodical lists. Date coverage is from 1997 to 2003. Journals are arranged by title.
